

# Acne Skin

***Do you or someone you know  
suffer from acne?***

The professionals at Skin Perfection specialize in Levulan Photodynamic Therapy. This treatment is the most recent and advanced in acne therapy.

Levulan is a natural acid, that when activated by light, is taken up by skin cells and targets damaged skin, acne oil glands, and acne bacteria. This treatment is known to be a highly effective remedy for active acne, red and brown acne scars, and significantly improves overall skin tone.
